INVITATION TO TAKE PART IN A RESEARCH PROJECT**

**Identity and Self-Perception Issues for Young Muslim people in Brisbane, Rockhampton  
and Mackay, Queensland**

This research project has been funded by the Queensland Department of Premier and Cabinet. It has two major aims. The first aim is to explore the identity and self-perception issues among young Muslim people, aged 9-19 years in three Queensland locations: Brisbane, Rockhampton and Mackay. Social, cultural, political and structural environments which influence the identity and self-perception issues as described by these young people will be investigated. The second aim is to review literature of relevant Australian and Queensland-based academic and policy documents. The implications on policies at National, Queensland and local governments will be based on the study's results.

In order to achieve the first aim, we would like to hear your opinion relevant to the project. If you are a young Muslim person (aged 18-19 years), the parents of a young Muslim person (aged 9-19 years), key community leaders or the representatives of Islamic organisations and would like to take part in our project,
