Dear Annette,

Thank you so much for once again taking the time and trouble to come and talk to our KGSC Philosophy and Reasoning class. We very much appreciated your visit, and learned a great deal from what you had to say. Both the factual knowledge a, your comments provided and the social awareness your visit promoted will, I am sure, make a positive difference to my students and to the communities they live and move in, now and in the future.

Many thanks, Chris Poulson (Teacher)

It was nice to hear from an everyday Islam follower that the religion is about respect and peace I think I speak on behalf of the class when I say it challenged representations by the media and made us all rethink our perceptions on Muslims.  
Thanks again, Roisin.

UI found it very interesting especially the information you gave us about “Allah and the and different rules that you have to follow. Dear Annette Yunus

Thank you so much for taking the time to speak to us bout your religion. I think that much of the western world have many negative preconceptions about Islam without knowing any thing of your faith. Too many people fail to separate extremists from regular practicing Muslims. It is for this reason I believe presentations such as yours incredibly important.
